

How to Parallel Park

Parallel Parking Rules

1. Pull up 2 to 3 feet beside the parked car.
2. Door to door, bumper to bumper, or trunk to trunk. Put the car in reverse and as you start backing up turn your wheel to the right, as soon as your back bumper passes the back bumper of the parked car cut hard to the right.
3. When you can see the parked cars back bumper in your back passenger side rear window, turn the steering wheel to the left slowly and watch the curb in the passenger side mirror.
4. When your front bumper passes the back bumper of the parked car turn you steering wheel sharply to the left.

YOU HAVE JUST SUCCESSFULLY PARALLEL PARKED!
